

CELLPACK

What's NEW

• Power Gel

Cat No. 335121

Kit Inclusions – Power Gel component A and component B, measuring cup, spatula

Two-Component Gel

to cast branch and connection boxes

Specifications

- **Unlimited Shelf Life if Unopened**
- The transparent two-component sealing compound provides a reliable protection to electrical and electronic components
- Flexible two-component gel with mixing ratio of 1:1
- Removable
- Suitable for Indoor/Outdoor areas (also with high humidity levels)
- Protection against moisture (IP68)
- For electrical systems up to 1kV

• VS Screw Connector

Cat No. 126214

Specifications

- Screw Connector for aluminium and copper conductors with grub screws.
- VS = For heat shrinkable cable joints
- 6-50mm² cable
- Material - Aluminium

• CSV-T Shear Bolt Screw Connector

Cat No. 266811

Specifications

- Screw Connector for RM/SM/RE/SE aluminium and copper conductors, suitable for straight-through and transition joints.
- Longitudinally sealed, with shear head bolts, with separator, for low voltage.
- For connecting conductors class 1 and class 2 in compliance with DIN-EN / IEC 60228
- 95-240mm² cable
- Material – Aluminium tin-plated

• Self Amalgamating Tape

Cat No. 10-411

Specifications

- CP62 High Voltage Insulation Tape
- Conductor insulation for plastic insulated cables up to 69kV
- Operating Temperature up to 90°C
- Maximum temporary temperature 130°C
- 19mm x 0.75mm x 4.5m

Available: June 2016
