# Applications & Opportunities

## Commercial, Industrial, Retail and Residential

There are many benefits of an Alarm or CCTV system.

We all have people or property that we want kept safe and secure, from danger, damage and theft.

The installation of an Alarm or CCTV system aids immensely in providing that protection.

Our products can provide a complete integrated security solution, or you can choose from our range components that can support existing systems.

We have systems available for small offices, public spaces, retail shops, commercial complexes, industrial buildings and residential homes.
