PROSCAN Flexible Infrared Sensor

3 Wire PIR Sensor featuring:

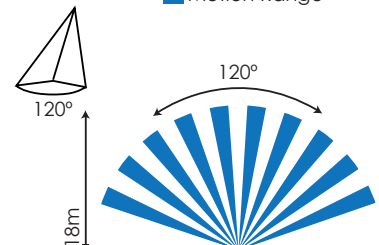

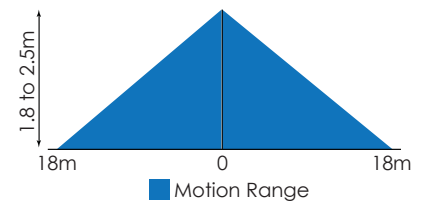

- Manual Override
- IP66 Weatherproof
- Wide Detection Range
- Adjustable Sensitivity
- **FULLY FLEXIBLE HEAD**

The Theta PROSCAN is a highly versatile and practical PIR Sensor.

Designed for outdoor use with a robust IP66 weatherproof rating, this sensor is ideal for many applications around the factory, office, warehouse, school and public utilities.

There are lots of settings available to tailor the PROSCAN to suit your specific needs: adjustable Lighting Control, Time Delay and Sensitivity. The fully flexible head can be rotated and twisted to specific points easily, and with a wide 18m detection range the PROSCAN covers a lot of area. Suitable for ceiling or wall mounting.

SPECIFICATIONS MSPRO

Voltage:	230-240 V/AC 50 Hz	Detection Range:	Up to 18m radius
Min Load:	1W	Installation Height:	from 1.8m to 2.5m
Max Load:	2000W Incandescent	Operating Temp:	-20°C ~ +40°C
Angle:	120°	Time Delay:	Adjustable 10sec ~ 30min
IP Rating:	IP66		

Date Released: June 2018
