

What's NEW

Theta Time Switch

Cat No. TS24HQ

Specifications

- Analogue
- 24 Hours
- Power Reserve 150 Hours
- 16 Amp Resistive Load

Equipped with Captive ABS Switching Pins. This guarantees absolute minimum tolerance between Pin position and contact switching.

Compared to other Time Switches on the market, this Unit has Permanent Selectable Switching Pins. The chance of losing any Pins and/or Time Settings is minimal.

Release Date: September 2015
